WHAT'S IN OUR MOISTURIZER !

Evening Primrose oil

Controls the skin's oil-water balance

Evening Primrose oil helps to reduce clogged pores
It regulates the balance of oil and moisture well.
Not only does it smell good, but it also removes unnecessary waste products from the skin.

Green tea

Removal of waste products from the skin

The catechin component in green tea has an astringent and soothing effect on tired skin and prevents skin aging.

Cucumber

Moisturizing and soothing the skin

Cucumber has excellent skin soothing effect and moisture replenishment ability.
It provides moisture to dry skin and cools the skin tired from long-term outdoor activities.

Cypress

Improves skin texture, soothes troubles

It has the ability to protect against foreign substances and free radicals, helping to prevent skin oxidation.

Silk amino acid

Silk-like soft feel

Silk amino acids are extracted from natural cocoons. Moisturizing factors contained in silk amino acids make the skin moist and elastic.

THE BENEFITS OF ESERIA AWESOME PRODUCTS

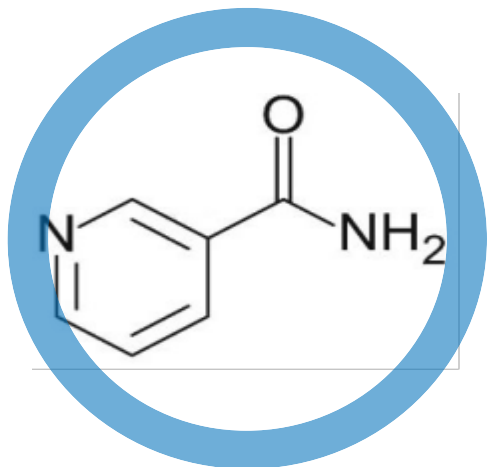

01. The insistence of Jayeon mapping cosmetics Use only natural ingredients

Jayeon Mapping Cosmetics contains varieties of ingredients that are good for the skin, while avoiding ingredients that are harmful to the skin.

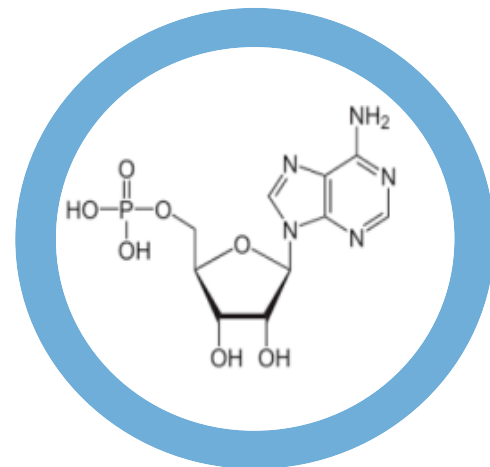

02. With dual functionality Effective for brightening and wrinkle improvement

Niacinamide and adenosine notified by the Ministry of Food and Drug Safety help skin brighten and assist wrinkle improvement.

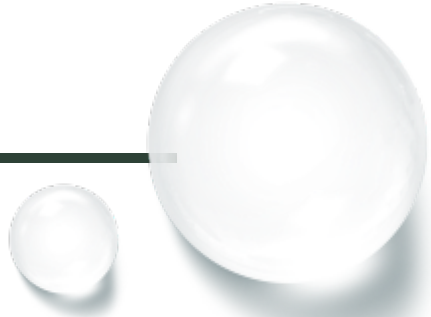

Niacinamide

Adenosine

THE BENEFITS OF ESERIA AWESOME PRODUCTS

03. SEVEN kinds of peptides important to your skin

Prevents skin aging with a mixture of 5 peptides and EGF and BFGF.

Palmitoyl Pen
tapeptide-4

Palmitoyl Pentapeptide-4 is a raw material used in anti-aging, and skin elasticity line products. When applied together with growth factors and peptides (EGF, FGF, IGF, etc.) with regenerative effects, a synergistic effect can be seen.

palmitoyl tetra
Peptides - 7

Palmitoyl tetrapeptide-7 promotes the production of collagen and hyaluronic acid in the skin.
And It is effective in fighting various inflammations.

Palmitoyl Tri
Peptide-1

It penetrates deep into the dermis and communicates with healthy cells to synthesize collagen in the dermis and regenerate the skin tissue.

acetyl hexa
Peptide-8

Acetyl Hexapeptide-8 interferes with the secretion of acetylcholine, reducing existing wrinkles and inhibiting newly formed wrinkles naturally and safely.

Copper Tri
Peptide-1

It restores tissue, strengthens elasticity, improves wrinkles, and strengthens the skin barrier.

sh-Oligopeptide-1

Promotes cell growth, division and differentiation, and promotes proliferation of fibroblasts that synthesize collagen

sh-Polypeptide-1

It is a very important factor that helps prevent skin aging, regeneration and recovery.

THE BENEFITS OF ESERIA AWESOME PRODUCTS

04. Contains 17 kinds of amino acids that help your skin

Glycine stabilizes collagen in the skin. Because our skin tissue is made by collagen synthesis, we can maintain elastic and shiny skin.

Serine has the effect of improving cognition that has been reduced due to aging.

Glutamic Acid penetrates into the skin and creates a natural moisturizing factor. Its strong moisturizing ability and moisture absorption are really good.

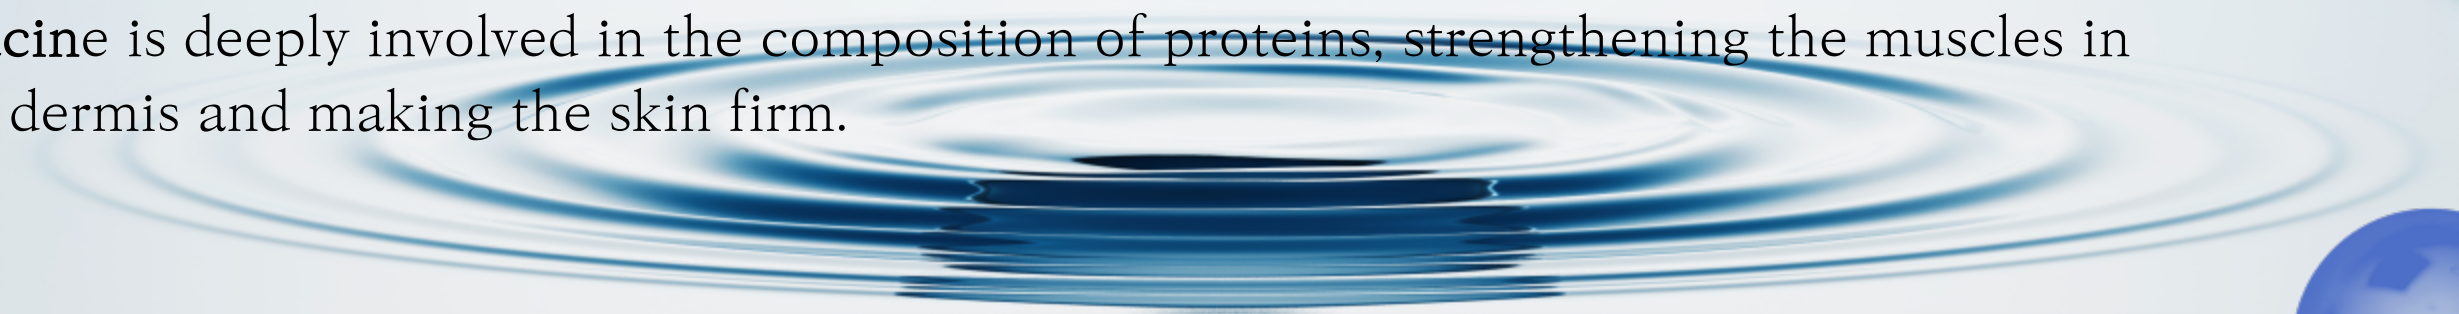

It helps to keep the skin moist by hydrating the skin.

Leucine is deeply involved in the composition of proteins, strengthening the muscles in the dermis and making the skin firm.

Alanine has the effect of maintaining moisture in the skin and maintaining the health of the hair.

THE BENEFITS OF ESERIA AWESOME PRODUCTS

04. Contains 17 kinds of amino acids that help your skin

Lysine

Lysine helps produce collagen that helps skin grow and maintain.

Arginine helps in wound healing by acting as a precursor to the formation of L-Proline, an important factor in collagen biosynthesis.

Arginine

Tyrosine

Tyrosine is used in cosmetics as a moisture evaporation blocking agent that holds moisture to the skin and hair. And provides moisturizing effect.

Phenylalanine helps to regenerate and rejuvenate the skin, making it younger and interfering with the delivery of melanin to limit the storage of pigments and increase the whitening function.

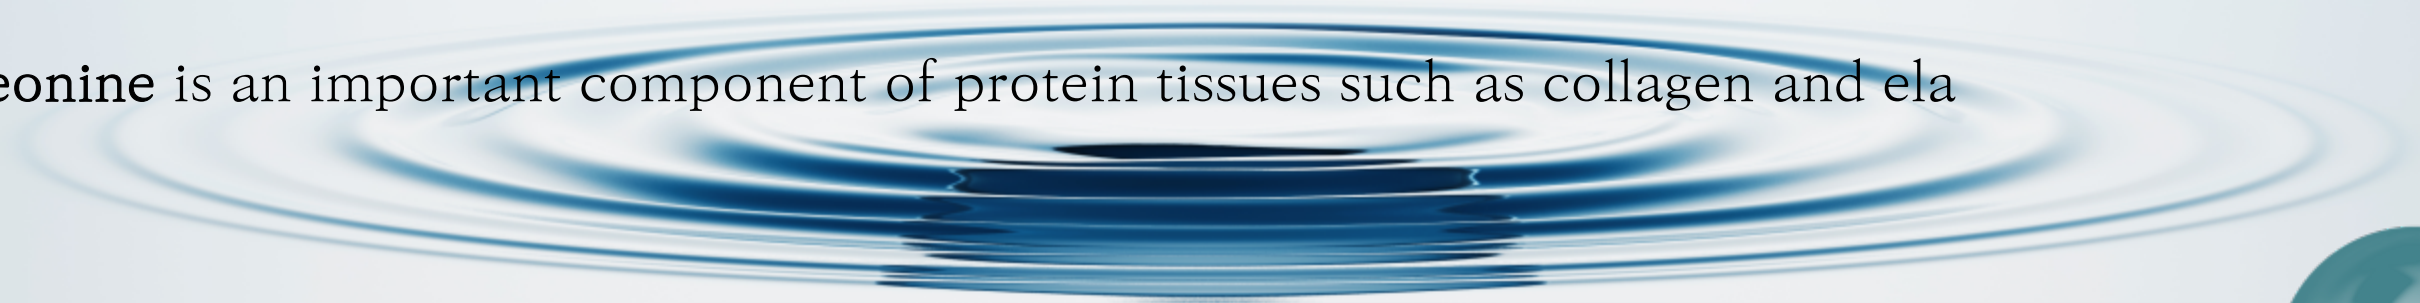

Phenylalanine

Threonine

Threonine is an important component of protein tissues such as collagen and elastin.

The main function of **Proline** is its ability to produce collagen, which repairs skin damage and maintains its structure.

Proline

THE BENEFITS OF ESERIA AWESOME PRODUCTS

04. Contains 17 kinds of amino acids that help your skin

Valine

Valine is mainly used as a moisturizer in cosmetics. Some of these are antioxidants, skin-improving, soothing, and helping to fix moisture.

Isoleucine, along with leucine, is used in cosmetics as a moisturizing ingredient because it enhances the water retention of microemulsions that create a lamellar structure (liquid crystal structure) very similar to intercellular lipids.

Isoleucine

Histidine

Histidine also has the effect of blocking UV rays and preventing skin troubles such as spots and wrinkles and skin cancer.

Methionine has the effect of preventing the evaporation of moisture by maintaining the acid film of the skin.

Methionine

Cysteine

Cysteine is an ingredient that helps in the production of glutathione and provides great effects on skin whitening and skin regeneration.
